Please note that Germany is a Federal Republic consisting of 16 partly-sovereign states (so called Federal Countries „Bundesländer“). Each of the Federal Countries has the administrative and fiscal capacity to implement legislation. As a consequence, there are COVID-19 measures implemented by the State of Germany and additional measures implemented by each Federal State.

Unfortunately, most of the information published in Germany regarding COVID-19 financial assistance is available in German language only. Therefore, please feel free to contact me in case you have any specific questions or issues. I am happy to assist.
